MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Mr. Bun Bray, House Post Office and Civil Service Committee staff

In meeting with Mr. Bun Bray today, he advised completely off the record that Chairman Henderson's position on protection of national security interests in any version of the Ervin bill that passes his Committee has solidified to the point where he would readily go on the floor on the need for protection of the systems that have been established and avoidance of any congressional act that might tend to weaken those systems. Bray also noted that privately the Chairman feels that the most embarrassing thing that could happen to him or his Committee would be to have a veto of legislation handled by him on the ground of national security.
